

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to
Keep her Looks Dark,
Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Weyth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been improved. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Weyth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft luster and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change
of Life by Lydia E. Pinkham's
Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city on a time. Of course I could not go to him, then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."
—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old-fashioned roots and herbs, meets the need of women's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. HELLERS, Acting Director of Sunday School Course of the Moody Bible Institute, Chicago.)

LESSON FOR APRIL 2

CONVERSION OF PAUL.

LESSON TEXT—Acts 9:1, 11 (See also Gal. 1:11, 12; 1 Tim. 1:15, 16).
GOLDEN TEXT—Faithful is the saying and worthy of all acceptance, that Christ Jesus came into the world to save sinners: of whom I am chief.—1 Tim. 1:15 R. V.

No other man, save our Lord, has made such an impress upon history as the "Jew of Tarsus." Read carefully and repeatedly Acts, chapters 9:22, 23 and 26.

1. Saul the Man. (1) Physically. We know but little of Saul (see Ramsey, Conybeare and others), but we know from his labors that he was a man of tremendous vitality. Distant Damascus knew of his work (v. 13) and he himself testifies as to his activities (22:3-26:11). (2) Religiously he belonged to the strictest of the strict, the Pharisees (26:5-9-11). His anger at Jesus and the disciples was a consuming passion; literally, he "breathed threatening and slaughter" (v. 1). In all his violence he was conscientious, but yet he was awfully and terribly wrong, and what is more, his actions were not alone against the disciples but against Jesus (v. 5). (3) Politically Saul was perfectly legal in keeping the law and in his executions in the name of the law. Doubtless a member of the Sanhedrim (26:10), his hatred knew no pity; it included all who believed in Jesus. (4) Mentally this man transcends all who have ever followed Jesus. A man of intense conviction, a slave to a misdirected conscience, a titan of gigantic force and power once in the right channel.

II. Saul Saved. (1) This man was first humbled (v. 4). God put forth his hand to save the elect at Damascus, though he let Saul go a long way in his mad career. When he did act, it was "suddenly" and by means of the glory of Christ's resurrection (v. 7, 1 Cor. 15:8). Though it was "about noon," yet this glory outshone the brightness of the Syrian sun (ch. 26:13). Many who speak bold blasphemous words would also be cast down did they but really see his glory. (2) Saul is not left thus stricken, but it is called from above (v. 7). The question of Jesus (v. 4) was a most startling one and that, with the answer to his honest inquiry, convicted him of what must have been a lurking suspicion in his mind, viz.: that he was wrong and Jesus was truly the Messiah. Then follows the question of an humble man (v. 6) and the clear instructions as to his immediate conduct.

III. Saul Sent. The first evidence of the change wrought in Saul was: (1) Obedience (v. 8). His companions heard but did not understand. There is no contradiction (v. 7, Acts 22:9), as this is the translation used elsewhere. Saul is given three days for meditation (v. 9), and he made good use of the time. (2) Praying (v. 11). The result was (3) a vision (v. 12) (not only one, as there are others recorded) which resulted in changed individuals and nations. But his vision was (4) a thorough commission (v. 15). (a) to the Romans—"kings," (b) Greeks—"Gentiles," and (c) Jews—"children of Israel." Along with his vision and commission there was given enabling power, the endowment of the Spirit. The agent God chose for the bestowing was Ananias, not an official, merely "a certain disciple." The gift of the Spirit for power and service is not necessarily by the "laying on of hands." It came to Mr. Moody as he walked the streets of New York without earthly companions. But the other conditions were fulfilled, a repentant, prayerful man and a ready and obedient servant who, though filled with fear and protest (v. 13, 14) yet takes God at his word and goes at once to his task. As we read verses 17 and 18 we discover that this special filling of the Spirit was very evidently given to Saul before he received Christian baptism—read the order of events carefully. God's gift of the Holy Spirit for testimony and service is not the prerogative of the church, priesthood, nor the result of any order of ceremony followed by men. Jesus' instructions to Ananias were very simple and plain; most of the great events that have changed the courses of history have also been hinged upon like simple actions. Ananias had no instructions about the Holy Spirit, only to restore Saul's sight. Much as he dreaded, he salutes Saul as "brother" (v. 17) in the name of the "Lord Jesus"—such is the only true brotherhood that stands the acid test of time and usage. Jesus is, outside of the Gospels (II Cor. 5:16), always referred to as Lord, and we do well to follow the Bible example.

IV. Saul Serving (1) At Damascus. Saul is given refreshment (he always lays emphasis upon the body) and straightaway began to testify to the amazement of the people. From Gal. 1:15, 17 it is plain that he did not remain all of the time in the city, nor did he at once return to his friends in Jerusalem. This period is similar to the "hidden years at Nazareth" which our Lord spent ere he began his ministry. It was a time of rest, reflection, analysis, meditation and formulation of his "gospel" (Rom. 3:19-23). (2) At Jerusalem. His testimony was distasteful to Damascus (v. 23-25) and so he sought Jerusalem, only there also to find distrust and rejection. Then Barnabas did a great work for the Kingdom by showing his brotherly fellowship and trust and becoming sponsor for him to the early church. It was not long ere he had to see Jerusalem and finally return to his childhood home, Tarsus (v. 31).

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract.

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS

Says Too Much Meat Forms Uric Acid Which Clogs the Kidneys and Irritates the Bladder.
Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

Cuba Lady Discovers New Remedy For Croup—You Just Rub It On

you wish, and I will take pleasure in answering any inquiries."
Vick's Vapo-Rub is the invention of a North Carolina druggist. He found how to combine Menthol and Camphor with the volatile oils of Eucalyptus, Thyme, Cubeb and Juniper in a salve form, so that, when Vapo-Rub is applied externally, the body heat releases the ingredients in the form of vapors. These vapors are inhaled with every breath, through the air passages, to the lungs, loosening the ph
